

GUIDLINE

To inquire concerning a person's name using Adobe 9 you can use the following procedure:

When the selected Ivy Hill Cemetery Adobe (PDF) file is opened in Adobe 9, choose the binoculars image or use the drop down menu "EDIT" then "FIND". Both of these options will present you with a small "window" into which you can key in the name of the person you are inquiring.

- Generally, the last or family name is keyed in to achieve an adequate response.
- Adobe will then present you with a highlighted list of all occurrences matching your inquiry.
- The list will be in the sequence in which they occur in the document file.
- You may then move down the list by using the Enter key.

To further restrict the scope of an inquiry, add more data to the inquiry ket such as:

- 1- Smith = Will return all occurrences of Smith. (Last, First, Maiden etc.)
- 2- Smith, = All occurrences of Smith (with comma) as the last name.
- 3- Smith, John = All occurrences of Smith with the first name John.

NOTE: If you are new to using Adobe please refer to their HELP documentation included in Adobe 9. Click on the "HELP" menu drop-down and then select "Adobe Reader 9 Help". A detailed overview of all of Adobe 9 services will be presented to you.

The following is a listing of those categories we are currently maintaining.

Maize, Josephine A. Moncure	08/15/1917	07/10/1977	T-16-2
<p>08/15/2002: In Alexandria, there was a woman's club, The Carlyle Club, that did various charitable activities. One of these was the "Lights On" ball for the American Cancer Society at the George Mason Hotel on Washington St. It is my understanding that the concept was later taken on by the cancer society in Washington, DC. and is now a major fund raiser.</p> <p>Attendance at this ball in Alexandria included prominent local persons as well as members of congress. Mrs. Maise was the President of the Carlyle Club. The event was a very Southern event: part of the underpinning Southern culture in Alexandria. "Jo" was a Moncure. There are two Southern style mansions on Janney's Lane not far from Ivy Hill. The one where Miss Maize lived is recessed from that street.</p> <p>Another member of the Carlyle Club was Frances Hufford Manchester, daughter of the owner of Shuman's Bakery (now on Washington Street) but at one time right across from city hall and a favorite gathering place for Council Members, etc. The Manchester mansion is not far from Ivy Hill and her son went to University of Mississippi. Shuman's is well known for their Southern-style Jelly cake.</p> <p>Several homes have been built since, on part of what was the Manchester property. The family was also helpful in acquiring the land for the First Baptist Church on King Street. Frances has a wonderful story of the day she drove to the White House, as a teenager, to see President Coolidge. Frances may have been the only Republican in Alexandria at that time.</p> <p>- Submitted by: Jon Christenson</p>

03/23/1912

06/16/1977

T-29-5

- " I have learned to use the word 'impossible' with the greatest caution."

- Wernher von Braun

-

Born in Wirsitz, East Prussia (Germany).

Wernher von Braun and his colleagues, working within the German war efforts in the late 1930's and early 1940's. were the first to perfect the liquid fueled rocket that would travel a long distance (200 miles). A successor to the the German jet-propelled V-1. The liquid fueled rocker was named V-2 (Vengance-2) . More than 1000 V-2's were manufactured, each weighing about 12 tons, between September 1944 and March 1945.

Dr. von Braun was brought to the United States by our government after WWII. his team was to perfect the "Redstone" rocket for the U.S. and on January 31, 1958 used it as the launch vehicle to place the United States "Explorer I" satilite into earth orbit.

-

Dr. von Braun would continue under Pres. Kennedy to develop the "Saturn 5" rocket which launched the Apollo spacecraft. This was to be the vehicle Neil Armstrong and Edward Aldrin used to land on the Moon July 20, 1969.
