

GUIDELINE

To inquire concerning a person's name using Adobe 9 you can use the following procedure:

When the selected Ivy Hill Cemetery Adobe (PDF) file is opened in Adobe 9, choose the binoculars image or use the drop down menu "EDIT" then "FIND". Both of these options will present you with a small "window" into which you can key in the name of the person you are inquiring.

- Generally, the last or family name is keyed in to achieve an adequate response.
- Adobe will then present you with a highlighted list of all occurrences matching your inquiry.
- The list will be in the sequence in which they occur in the document file.
- You may then move down the list by using the Enter key.

To further restrict the scope of an inquiry, add more data to the inquiry ket such as:

- 1- Smith = Will return all occurences of Smith. (Last, First, Maiden etc.)
- 2- Smith, = All occurrences of Smith (with comma) as the last name.
- 3- Smith, John = All occurrences of Smith with the first name John.

NOTE: If you are new to using Adobe please refer to their HELP documentation included in Adobe 9. Click on the "HELP" menu drop-down and then select "Adobe Reader 9 Help". A detailed overview of all of Adobe 9 services will be presented to you.
